

**TOTAL NUTRACEUTICAL SOLUTIONS CEO MARVIN HAUSMAN, M.D., WILL
DISCUSS NUTRITION AND VIRAL INFECTIONS ON POPULAR LOS ANGELES
RADIO SHOW KTNQ 1020 AM**

Stevenson, WA, August 7, 2009 – [Total Nutraceutical Solutions, Inc](#) (TNS); (OTC.BB: TNUS) announced today that the company’s CEO Marvin Hausman MD. has been invited to discuss the relationship between nutrition, immune system function, and bacterial and viral infection on the popular Saturday morning radio show “La Hora de Manuel Franco” on KTNQ 1020 AM. This Latino Community radio show deals with issues facing today’s diverse Latino culture. The recent scares concerning H1N1 infection (Swine Flu) has raised many questions among the Los Angeles Latino community. Dr. Marvin Hausman and Judge Manuel Franco will discuss the topic of viral infections and answer call-in questions.

“Prevention rather than intervention is the message that I want to bring to the people,” stated Marvin Hausman MD, CEO, Total Nutraceutical Solutions, Inc. “Most people have forgotten about the role that nutrition plays in the daily fight against infection. As an Immunologist and Urologist, trained at UCLA Medical Center, I look forward to this opportunity to return to Los Angeles and share valuable health information with the Latino Community.”

“I have been inundated with questions concerning the upcoming fall flu season and the fears of a potential Swine Flu pandemic,” said Judge Manuel Franco. I reached out to Dr. Hausman to assist me in discussing viral illnesses, address questions of the people, and hopefully provide them with information to allow them to make needed decisions regarding their nutrition and health.”

About Total Nutraceutical Solutions, Inc:

Total Nutraceutical Solutions, Inc. is an emerging nutraceutical company with a focus on discovering, formulating and marketing products composed primarily of organic natural mushroom compounds that contain bioactive nutrients for potential health benefits. TNS develops production and analytic technologies for food and nutritional supplements composed primarily of mushrooms and their mycelial biomasses. Novel clinical models and biomarkers will be used to show nutritional and clinical efficacy of our products. In addition to preventative healthcare formulations and nutritional approaches to a wide variety of human conditions and illnesses, TNS also develops and acquires breakthrough nutritional tools and products in the fields of animal husbandry and livestock feeds.
