

Life Pack

\$49.95

1-month supply

Life Pack™ is a revolutionary whole food supplement that combines years of exhaustive research from world-renowned medical institutes, patented technology and the renewed popularity of holistic medicine. Composed of a proprietary blend of certified-organic, specialty mushrooms, Life Pack™ provides the body with over 3,000 essential bionutrients, antioxidants and probiotics to nutritionally support the cellular, immune and circulatory systems. Deficiencies in these systems are now being linked to a wide variety of inflammatory conditions:

- Chronic pain
- Heart disease
- Diabetes
- Cancer
- Alzheimer's disease
- Gum disease

Although inflammation hasn't been pinpointed as the cause of such conditions, it has been well-documented as playing a part in them—often intensifying symptoms and effect.

ImmuSANO™

+Vitamin D2
500 IU
per capsule

ImmuSANO™ nutritionally assists in balancing cellular function and promoting a stronger immune system.

- ✓ Contains natural L-ergothioneine, a highly potent antioxidant which cannot be manufactured by the human body

The Power of **Mushrooms**

Nature's Ultimate Super Food™

Mushrooms are one of the largest and most complex biologic organisms on the planet and have been used in ancient medicine for thousands of years. Mushrooms naturally contain a host of antioxidants and anti-inflammatory compounds, including L-ergothioneine and vitamin D2. Life Pack™ mushrooms are grown in GMP-grade conditions and are enhanced by state-of-the-art, patented UV-light technology to increase vitamin D levels nearly 1,600 times.

✓ **Vitamin D**

Vitamin D is essential for life however, most people aren't getting enough. It has been estimated that increasing the mean serum level of vitamin D above normal could reduce annual deaths in Canada by 37,000 or 16.1% and decrease the economic burden by 6.9% or \$14.4 billion dollars (W.B Grant et al, Mol.Nutr.Food Res.2010,54,1-10).

✓ **L-Ergothioneine**

L-ergothioneine (ERGO) is one of the most potent antioxidants known to date and recent research from Johns Hopkins University School of Medicine has identified a link between ERGO and the prevention of DNA and cell damage—a leading cause of cancer. The primary and most potent food source of ERGO is mushrooms.

By loading your body with vital nutrients found only in these whole foods, Life Pack™ strengthens your body's defense system at the most basic cellular level. By placing emphasis on prevention, Life Pack™ is one of the best *lifestyle* choices you can make.
